

## PMOAC - the steps forward

Hi to all our members,

We have finally been able to have committee meeting and now we can open the scale box once again to continue with the club. Even though Victoria is having problems with the Covid-19, we in S.A. are safely progressing. We thank you for your patience and are planning our way forward.

The club will start again on 1st July, weighing and tagging fish for trophies.

The first competition, 4th & 5th July, is a two-day SBT competition. Saturdays weigh in will include a BBQ (and maybe some beers), weigh ins are at 4 p.m. Prizes – Heaviest SB tuna -Shimano Tiagra-16 reel. Most Meritorious SB tuna – Grail master 6kg game rod. Many runners up prizes as well.

The monthly lucky angler draws for each different species of fish weighed will continue, July will be a Saragosa 8000 reel. Once you have won you are ineligible for another.

The new exciting full schedule will soon be available.

Big news, we have set the date for the Tuna comp.

### **40th Tuna & Sports fish Tournament – 1st May to 8th May 2021**

We will have an AGM, hopefully in August or when social distancing allows. Also, the trophy presentation night that was cancelled will be announced.

We plan to hold an information night soon about boat/motor maintenance. Again, when social distancing allows.

This is an ideal time to be part of the PMOAC as we work our way out of the isolation period. We would like to encourage our current members to let others know and maybe sign a few new people up. There are lots of past members that have also not renewed this season.
